2. I authorize and request the U.S. Commissioner of Patents and Trademarks and other authorities in foreign countries to issue any and all patents on the Inventions or resulting from the Applications and from any and all divisions, continuations, continuations-in-part, substitutions and reissues thereof to RESODYN CORPORATION as assignee of my entire interest.

b. execute and deliver any and all papers, make all rightful oaths and do all lawful acts that may be necessary or desirable for the filing by RESODYN CORPORATION or any Assign of any additional patent applications for the Inventions or any divisional, continuation or continuation-in-part applications based upon the Patent Applications or any reissue applications of the Patents, or any disclaimer relating thereto, and the procuring thereof; and

6. This ASSIGNMENT AND AGREEMENT and its provisions shall be binding upon my heirs, legal representatives and successors, and shall inure to the benefit of the successors, legal representatives and assigns of RESODYN CORPORATION and all future assigns thereof.

7. In the event that any provision, part or condition set forth in this ASSIGNMENT AND AGREEMENT is adjudicated or declared to be illegal, unenforceable, invalid or void, in whole or in part, the remainder of this ASSIGNMENT AND AGREEMENT shall be considered severable, shall continue in full force and effect to the full extent permitted by law.
